

# Sulla tabella dei numeri

1 - Esegui le addizioni sulla tabella, come nell'esempio.

0	1	2	3	4	5	6	7	8	9
10	11	12	13	14	15	16	17	18	19
20	21	22	23	24	25	26	27	28	29
30	31	32	33	34	35	36	37	38	39
40	41	42	43	44	45	46	47	48	49
50	51	52	53	54	55	56	57	58	59
60	61	62	63	64	65	66	67	68	69
70	71	72	73	74	75	76	77	78	79
80	81	82	83	84	85	86	87	88	89
90	91	92	93	94	95	96	97	98	99

$$12 + 7 = \boxed{\dots}$$

0	1	2	3	4	5	6	7	8	9
10	11	12	13	14	15	16	17	18	19
20	21	22	23	24	25	26	27	28	29
30	31	32	33	34	35	36	37	38	39
40	41	42	43	44	45	46	47	48	49

90	91	92	93	94	95	96	97	98	99

$$83 + 5 = \boxed{\dots}$$

# Addizioni in tabella

1 - Completa le tabelle 1, 2, 3, 4, 5, 6 e fai le tue osservazioni.  
Completa le tabelle 7 e 8 come vuoi tu.

# Addizioni attraverso la decina

1 - Osserva attentamente la spiegazione.

$$\boxed{9} + \boxed{4} = \boxed{\dots\dots}$$

- Per passare attraverso la decina ho usato la coppia ordinata del numero 4  $\rightarrow$  (1;3).

2 - Completa.

$$\boxed{8} + \boxed{6} = \boxed{\dots\dots}$$

- Per passare attraverso la decina ho usato la coppia ordinata del numero 6  $\rightarrow$  (.....;.....).

$$\boxed{7} + \boxed{8} = \boxed{\dots\dots}$$

- Per passare attraverso la decina ho usato la coppia ordinata del numero 8  $\rightarrow$  (.....;.....).

# Addizioni attraverso la decina

1 - Completa.

$$\boxed{17} + \boxed{5} = \boxed{\dots\dots}$$

- Per passare attraverso la decina ho usato la coppia ordinata del numero 5 → (.....;.....).

$$\boxed{27} + \boxed{5} = \boxed{\dots\dots}$$

- Per passare attraverso la decina ho usato la coppia ordinata del numero 5 → (.....;.....).

$$\boxed{24} + \boxed{9} = \boxed{\dots\dots}$$

- Per passare attraverso la decina ho usato la coppia ordinata del numero ..... → (.....;.....).

# Mi esercito

1 - Completa.

2 - Scrivi i numeri che vuoi e completa.
